

Woodside Primary School

Class News - January 2017

Primary 5 with Miss Clark

Another exciting term ahead in Room 12 with lots of fun activities planned!

Our first mini topic is on Scotland. The children have started to explore the rivers and mountains, learning some interesting facts along the way! There will also be the opportunity to explore our local area to find out more about the geography and history. We will then move on to the Vikings.

In Numeracy we have started work on money. Thank you for all the interesting coins and notes that have been brought in already. It has been great to see what different currencies and old coins look like.

We continue to be great promoters of technology in our classroom. The boys and girls will have the opportunity to work on a range of apps with our iPads and also experience our shiny new Chromebooks. We will be introducing a blogger and tweeter of the week so please check our school website and class twitter account for snapshots of our learning! You can find the action at @missloclark or @woodside_school

We will continue to use Education City for homework, normally every second week. If your child has lost their username/password they can ask for a new copy.

Our Gym days this term are a Tuesday with Mrs Whyte and a Friday with me. Please ensure that your child has full gym kit with them.

Thank you for your continued support,

Miss Clark
