

Woodside Primary School

Class News - January 2017

Welcome back to Primary 5 in Room 17. A new year and a busy term ahead for the boys and girls in Room 17

Project

This term the whole school is starting off with a 'Scotland' theme in our learning. We are learning more about Scotland's geography as well as our local environment. To add to this, we have just completed a whole week of Scots themed drama workshops. Quids In theatre group have been working with the class on *Geordie's Mingin Medicine* (a Scots adaptation of *George's Marvellous Medicine*). The children have been so enthusiastic about the sessions, learning new Scots and drama techniques.

Science

Mrs Davidson works with the class every week, teaching science. This term the class are investigating 'Planet Earth' in her lessons, the sessions have a practical focus and the class are always keen to carry out new investigations. We are hoping to visit the Aberdeen Science Centre later in the term to learn more!

Twitter

Look out for any updates on the school twitter account @woodside_school. Room 17 have an account which we are going to try and post on weekly to keep you up-to-date with our learning @miss_clarke5.

We look forward to the term ahead and lots of new learning.

Miss Clarke and Primary 5 , Room 17
